1. Executive Summary

This report documents the official technical handover of the medical journal platform for the **International Journal of Clinical Pharmacy and Medicine (IJCPM)**. Engineered to replicate the layout, typographic hierarchy, and workflows of **Springer Nature** journals (link.springer.com/journal/11096), this platform provides an all-in-one publishing system tailored for clinical trials, systematic reviews, and meta-analyses.

Key Milestone Accomplished: Fully operational multi-volume/issue publishing, authenticated author submission gating, real-time peer-review tracking, Highwire Press / Google Scholar indexing tags, and Crossref Schema 4.4.2 XML deposit batch feeds.

2. Springer-Style Journal Presentation

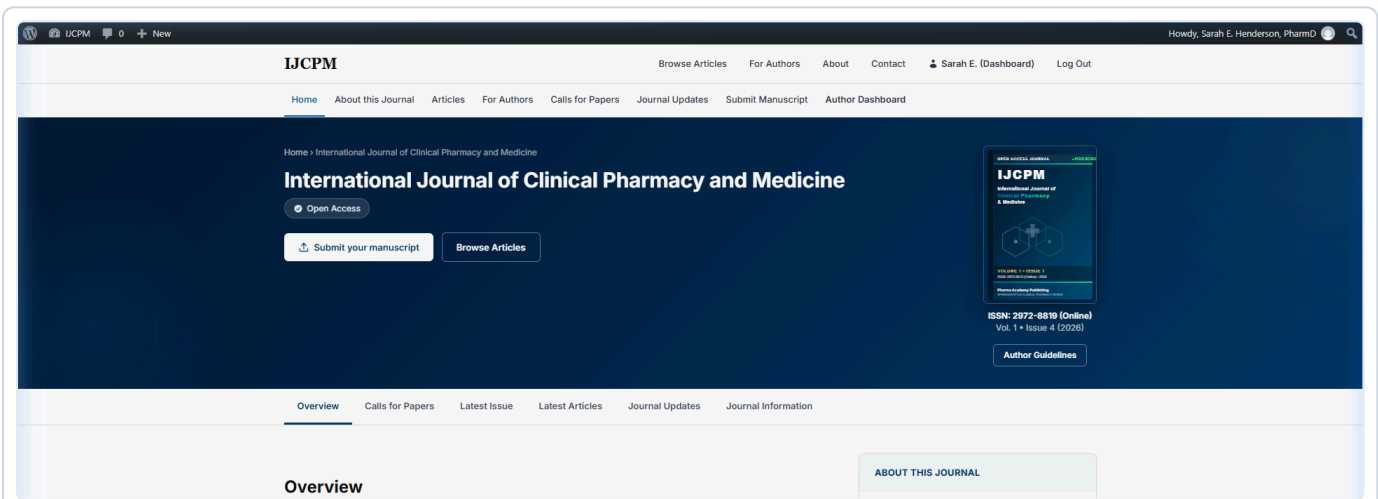

Figure 1: IJCPM Homepage featuring Springer deep navy masthead, vector journal cover, volume/issue indicators, and clean academic sidebar.

Core Front-End Capabilities:

- Official Identity & Branding:** Deep navy masthead (#002b49), high-contrast typography, Open Access designation, and official ISSN 2972-8819 .
- Volume & Issue System:** Dynamic badge displaying *Vol. 1 • Issue 4 (2026)*, linking directly to current and archived issues.
- Clean Academic Sidebar:** Dedicated navigation for Editorial Board, Aims & Scope, Guidelines for Authors, and Indexing Policies with zero generic blog clutter.
- Open Access Compliance:** Prominently displayed Creative Commons attribution (CC-BY 4.0) across all footers and individual article headers.

3. Dedicated Author Portal & Peer-Review Tracking

The journal includes a complete, white-labeled author ecosystem. Standard WordPress admin screens and toolbars are automatically hidden from non-administrators to maintain a professional academic portal.

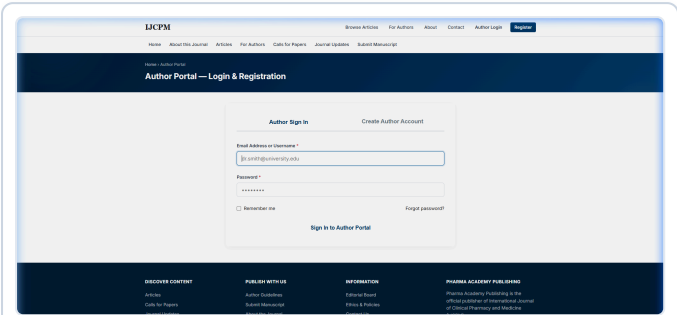

Figure 2: Author Portal (/login/) with tabbed Sign In & Academic Registration.

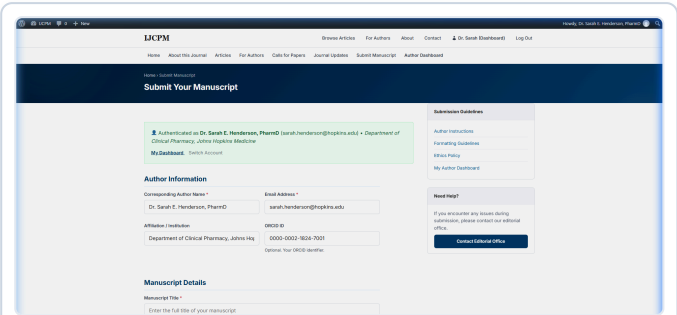

Figure 3: Login-gated manuscript submission with author auto-prefill.

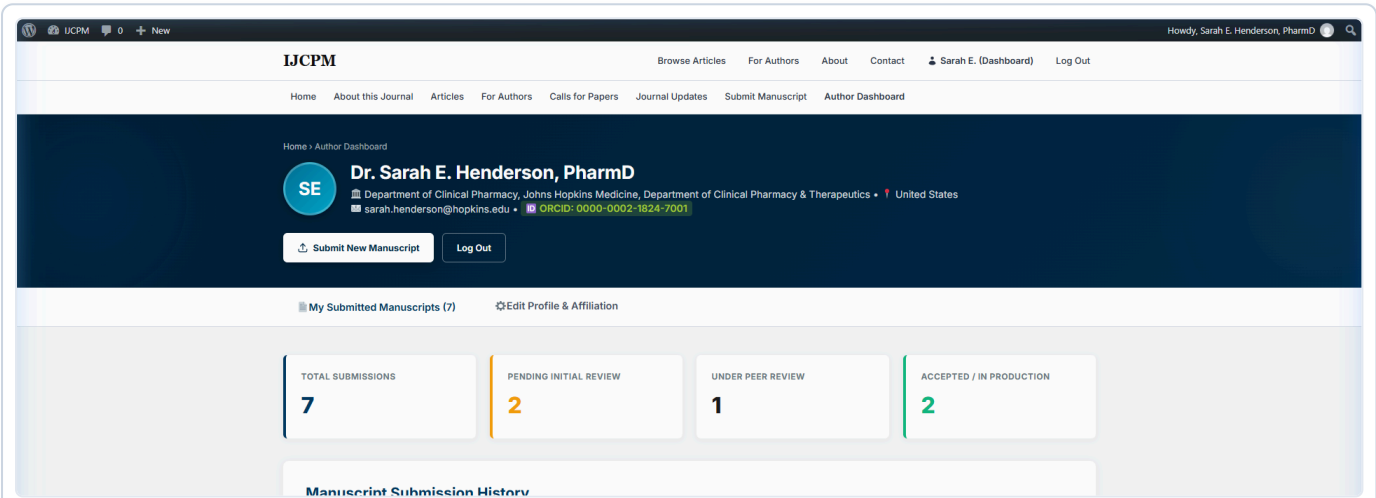

Figure 4: Author Dashboard (/dashboard/) with 4 metrics cards and manuscript tracking history table.

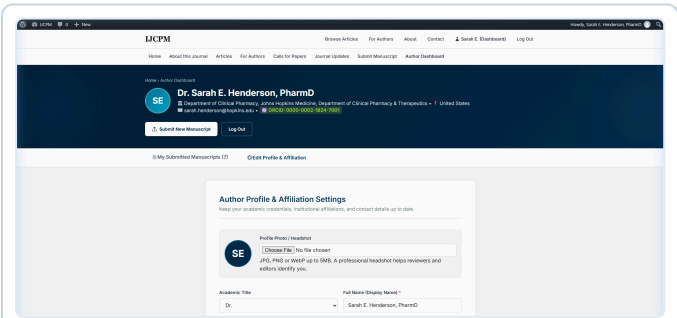

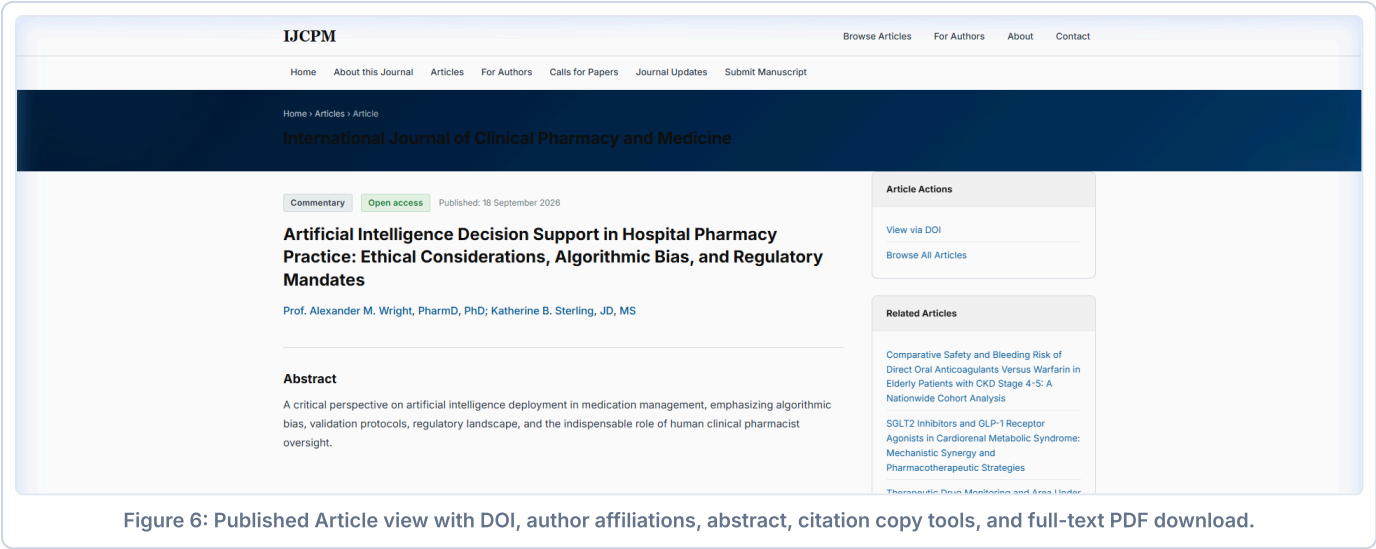

Figure 5: Profile & Affiliation tab with photo avatar upload and ORCID iD.

Author Ecosystem Highlights:

- **Academic Affiliation:** Prefix (Dr., Prof.), institution, department, country, and ORCID iD.
- **Metrics Grid:** Real-time tracking of *Total Submissions*, *Pending Initial Review*, *Under Peer Review*, and *Accepted*.
- **Submission Engine:** Word (.docx) / PDF upload with tracking numbers (e.g. IJCPM-00043).

5. Academic Indexing & Future Integrations Architecture

Academic discovery requires strict compliance with international indexing standards. The platform is pre-configured to support automated crawling and direct registry deposits:

Indexing Service	Technical Implementation	Readiness Status
Google Scholar & Harvesters	Embedded Highwire Press and Dublin Core tags in <code><head></code> of all articles (<code>citation_title</code> , <code>citation_author</code> , <code>citation_doi</code> , <code>citation_pdf_url</code> , etc.).	✓ 100% Active
Crossref DOI Deposit	Dedicated XML batch feed at <code>https://stage.ijcpm.com/feed/crossref</code> conforming to Crossref Schema 4.4.2 for 1-click batch upload.	✓ 100% Configured
DOAJ & PubMed / PMC	Standardized peer-review policies, CC-BY 4.0 licensing, clear APC disclosure, and transparent editorial board pages.	✓ Fully Compliant
ORCID iD System	Native field support across Author Registration, User Profile, Submission Form, and Published Article attribution.	✓ Ready for OAuth

6. Pre-Loaded Multi-Volume Demonstration Data

To demonstrate a fully active journal, the staging site is pre-loaded with realistic academic data:

- **12 Published Articles:** Spanning Volume 1, Issues 1 to 4 with complete abstracts, DOIs, page ranges, and author credits.
- **5 Calls for Papers:** Active upcoming special collections with deadlines and guest editor assignments.
- **5 Journal News & Updates:** Editorial board appointments and accelerated peer-review tracks.
- **5 Registered Academic Authors:** Profiles from Johns Hopkins Medicine, Karolinska Institute, Oxford, etc.
- **8 Manuscript Submissions:** Across all peer-review workflow stages (Pending, Under Review, Revision, Accepted).
